

**ANDERSON READY TO MAKE THE RACE**

Dry Leaguer Will Be Candidate for U. S. Senator if Necessary to Beat Wadsworth.

William H. Anderson, State Superintendent of the Anti-Saloon League, whose associates are urging him to run as an independent candidate for the United States Senate in opposition to Senator James W. Wadsworth, has issued this statement:

"I am not a candidate for any political office. I prefer my present job to any political office, and I should not, for a moment, seriously entertain any proposition which involved even the remotest possibility of election.

"However, I am in deadly earnest about the importance of defeating Senator Wadsworth. I have made sacrifices for this cause for twenty years and one more sacrifice, more or less, is a small matter."

He then declares that as his election would be impossible he would run if that is "the only way" to defeat Wadsworth and save the Republican Party from the folly of its present management, and adds:

"It is too soon to attempt to answer this question. The middle of June will be time enough."

Berlin Newspapers Get Little Comfort From Visit of Representatives.

BERLIN, May 7.—Newspapers, which have been following the activities of a group of representatives of the Morgan banking interests of New York, who are touring Central Europe, doubt the possibility that Germany may receive aid in the form of a loan floated through New York banks.

The Morgan representatives, according to the newspapers, are gathering information on conditions in Central Europe and probably will make a second visit late this summer.

Announcing our

**Annual Re-grouping of Higher Priced Men's Suits**

in which we gather together all of our incomplete lines (in the present case amounting to 384 garments) that were

**REGULARLY PRICED UP TO \$75**

We're disposing of them at the one price of

**\$55**

Now here's where our method of merchandising stands out. It is a rule in the clothing business to keep higher priced suits for end-of-season sales. But as we see it, it is not only a fogey rule but a foolish one. In the first place, our stocks must be complete at all times and if certain lines begin to be broken into (that is, if this style is missing or that size gone) we deem it necessary to clear them out forthwith, not to "salt them away" until the season is over in the hope that in the interval many garments may be sold at regular prices. Secondly, if this principle applies to lower priced suits it must also apply to the higher priced ones. Here, then, is the first chance you've had this year to get something really fine for very little money—very little, indeed!
